CYBERSECURITY:

OBSTACLES AND OPTIMISM IN US-CHINA RELATIONS

Beth Schwanke, will lay out the current state-of-play in US-China relations focusing on how the flashpoints in the US-China relationship—economic competitiveness, national security, and human rights—are each deeply affected by cybersecurity issues. She'll address China's new cybersecurity law and offer reflections on the implications beyond China's borders. She'll conclude by laying out opportunities for the United States and China to work constructively together on cybersecurity issues.
